

General Welfare Requirement: Safeguarding and Promoting Children's Welfare

The provider must promote the good health of the children, take necessary steps to prevent the spread of infection, and take appropriate action when they are ill.

Promoting health and hygiene

Food and drink

Policy statement

St Michaels Playgroup regards snack and meal times as an important part of the setting's day. Eating represents a social time for children and adults and helps children to learn about healthy eating.. At snack and meal times, we aim to provide nutritious food, which meets the children's individual dietary needs.

EYFS key themes and commitments

A Unique Child	Positive Relationships	Enabling Environments	Learning and Development
1.4 Health and well-being	2.1 Respecting each other 2.2 Parents as partners 2.4 Key person	3.2 Supporting every child 3.4 The wider context	4.4 Personal, social and emotional development

Procedures

We follow these procedures to promote healthy eating in our setting.

- Before a child starts to attend the setting, we find out from parents their children's dietary needs and preferences, including any allergies. (See the Managing Children with Allergies policy.)
- We record information about each child's dietary needs in her/his registration record and parents sign the record to signify that it is correct.
- We regularly consult with parents to ensure that our records of their children's dietary needs - including any allergies - are up-to-date. Parents sign the up-dated record to signify that it is correct.
- We display current information about individual children's dietary needs so that all staff and volunteers are fully informed about them.

- We implement systems to ensure that children receive only food and drink that is consistent with their dietary needs and preferences as well as their parents' wishes.
- We provide nutritious food for snacks, avoiding large quantities of saturated fat, sugar and salt and artificial additives, preservatives and colourings.
- Our snack time include foods such as; wholemeal toast, apples, bananas, grapes, melon, strawberries, kiwi, plums, breadsticks, raisins, milk and water.
- We take care not to provide food containing nuts or nut products and are especially vigilant where we have a child who has a known allergy to nuts.
- Through discussion with parents and research reading by staff, we obtain information about the dietary rules of the religious groups to which children and their parents belong, and of vegetarians and vegans, and about food allergies. We take account of this information in the provision of food and drinks.
- We provide a vegetarian alternative on days when special events are taking place eg; picnics/BBQs etc..
- We require staff to show sensitivity in providing for children's diets and allergies. Staff do not use a child's diet or allergy as a label for the child or make a child feel singled out because of her/his diet or allergy.
- We organise snack times so that they are social occasions in which children and staff participate.
- We use snack times to help children to develop independence through making choices, serving food and drink and feeding themselves.
- We provide children with utensils that are appropriate for their ages and stages of development and that take account of the eating practices in their cultures.
- We have fresh drinking water constantly available for the children. We inform the children about how to obtain the water and that they can ask for water at any time during the day.
- In order to protect children with food allergies, we discourage children from sharing and swapping their food with one another.
- For children who drink milk, we provide whole pasteurised milk.
